

## Pre-existing medical conditions from the last 5 years are not covered.

This policy does NOT provide cover for medical conditions which the insured person has been diagnosed with, sought treatment for, is on prescribed medication for, or attended hospital for in the last 5 years.

If the above applies to anyone travelling, and they would like to have such conditions covered, they may be able to get cover for their existing medical conditions by visiting the MaPS (Money and Pensions Services) [Travel Insurance Directory](#) or calling +44 (0) 800 138 7777.

Please be aware that cancellation cover may not be available for all travelling individuals in your group if you/they are insured under separate policies.
